## Summit Quilting Frame Features:

- Constructed of Steel, Aluminum and American White Ash Hardwood.
- Attractive contemporary design, not your average quilt frame!
- Adjustable length, choose 6', 8', or 10'. Purchase conduit rollers separately.
- Extension kits for 12' & 14' available.
- Durable clear finish. Enhances and protects the beauty of the hardwood.
- Quick-Change Rollers\* - change from traditional "Over the Top" setup to professional "In the Well" setup mid-quilt to take advantage of both roller options.
- Quick-Adjust Roller Height System\*. No bending over, no knobs to turn.
- 4th roller for separate batting.
- Large template platform & rear work surface with template connection points.
- Adjustable grip, spring-clamp end tensioners.
- Adjustable in height from 29" to 42" (seated or standing).
- Steel carriage with advanced tracking and stability\*.
- Adjustable leveling feet.
- Low-profile, strong metal ratchet wheels for secure quilt tensioning.
- Up to 21" quilting area.
- Small footprint, only 38" deep.
- Compatible with Indigo, Voyager 17 and many Longarm Sewing Machines, up to 24".
- Compatible with Quilt-EZ Template System.
- Compatible with the most popular computerized machine controllers including Q-Bot and Quilt Motion.
- Five year warranty on all frame parts.
- Made in Wisconsin, USA.
